The Multiple Indicator and Health Survey (2015-16 IIMS) was implemented by the Angola National Institute of Statistics (INE), in direct collaboration with the Ministry of Health (MINSA) and the Ministry of Planning and Territorial Development (MPDT). INE coordinated the survey, with collaboration from MINSA and with technical assistance from United Nations Children's Fund (UNICEF) and ICF, through the Demographic and Health Surveys Program, which provides support for population and health surveys in countries worldwide, and logistical support from the World Health Organization (WHO). The survey was funded by the United States Agency for International Development (USAID), through the President's Malaria Initiative (PMI) and the President's Emergency Plan for AIDS Relief (PEPFAR); the World Bank, through the Ministry of Health's Municipalization Program; and the Government of Angola.
