Pagination problem

There are minor pagination problems in various parts of the Nigeria 2008 final report that was printed in the US. These problems do not appear in the version of the report printed in Nigeria. **The pagination problems DO NOT affect the actual text. All pages are present and in the correct order, just some pages have incorrect numbers because of a software problem.**

The pagination problems have been corrected in the PDF for the Nigeria 2008 final report (FR222) on the MEASURE DHS web site (www.measuredhs.com).

Other changes that have been made to the report since publication

Back of title page [ii] – The text was edited in a number of places. The following is the corrected text:

The 2008 Nigeria Demographic and Health Survey (2008 NDHS) was implemented by the National Population Commission (NPC) and fielded from June to October 2008. ICF Macro provided technical assistance as well as funding to the survey through MEASURE DHS, a project funded by the United States Agency for International Development (USAID) that provides support and technical assistance for the implementation of population and health surveys in countries worldwide. Funding for the survey was provided by USAID and the U.S. President's Emergency Plan for AIDS Relief (PEPFAR). Funding for the household listing and additional fieldwork support was provided by the United Nations Population Fund (UNFPA).
